

# Pringle Can Mummy

By Amanda Formaro, Crafts by Amanda

## Supplies:

- Empty Pringles can
- Construction paper: white, tan and black
- 2 googly eyes
- Scissors
- Glue stick
- White craft glue

## Instructions:

1. Cut a rectangle from the black paper (approximately 2" x 4") and use glue stick to attach to the front of the Pringles can, toward the top. Use white craft glue to attach the eyes to the black rectangle.
2. Cover the remaining can and all but a small area of black that has the eyes on it, with tan construction paper using a glue stick.
3. Tear white paper into strips. Use a glue stick to attach the white strips around the can until all the tan paper is covered.

## Note:

The tan paper is used to hide the label of the Pringles can that would normally show through the white paper. This step is optional and purely for aesthetic purposes.
